

The Phanatix

Driller Killer

How do you know what's right or wrong?
When bullshit rules and the truth is gone
You got your side, stay out of mine, right!
I eat you for lunch and shit you out at night

Fuck the phanatix - Don't point your finger at me
Fuck the phanatix - This is my theory

Go with the fashion flow, join the crowd
Held your banners high, scream it loud
Take your fucking beliefs and suck 'em dry
Dry like a desert, then fucking die

Fuck the phanatix - Don't point your finger at me
Fuck the phanatix - I'll give you anarchy

I'm gonna place my head in your stupid hat
I'll stop using my brain, I'll be a copycat...
