

Where The Sun Never Shines

Driller Killer

You took me to a place where I've never been
A f**ked up mess in hell that I've never seen

Where the sun never shines...

Inside the vicious circle, I never learn
My future hell is past but still I burn
(Hero in arms)

Day by day, night after night
Minute by minute I run out of light
Dr. Feelgood don't open doors
He locks you in, fullblown force
