

# Can't Go On

Drist

Finding all reasons  
To break my spirit down  
How long?  
The sun seems to fade from morning

And you just have to know  
I gave up just to let  
Are we that dumb?  
And are you used to it?

Leave me standing here  
'Cause I just can't go on  
I can't go on  
You know I wanna know right now  
Leave me tethered here  
'Cause I just can't hold on  
I can't hold on  
Knowing what to know now

You wait for the moments  
I break my arms crime  
And while you're a few steps away, laughing

And I was last to know  
My chance had passed me by  
Do you still dream?  
And are you over it?

Leave me standing here  
'Cause I just can't go on  
I can't go on  
You know I wanna know right now  
Leave me tethered here  
'Cause I just can't hold on  
I can't hold on  
Knowing what to know now

Now, now  
Now, now

Leave me standing here  
'Cause I just can't go on  
I can't go on  
You know I wanna know right now  
Leave me tethered here  
'Cause I just can't hold on  
I can't hold on  
Knowing what to know now
