

My Fate

Drist

Give me, a good reason
Why I should rip my heart out for you
Tell me, when your secrets
All come crashing down upon you

See the life I take
Won't be yours for keeping
I decide my fate
I won't need any longer

See the life I take
Won't be yours for keeping
I decide my fate, my fate

Hiding, in the shadows
Is the promise of something better
Lead us, into reason
Live for ending is all in all in fact

See the life I take
Won't be yours for keeping
I decide my fate
I won't need any longer

See the life I take
Won't be yours for keeping
I decide my fate, my fate

And maybe down it's just another failing
And maybe down it's just another failing

See the life I take
Won't be yours for keeping
I decide my fate
I won't need any longer

See the life I take
Won't be yours for keeping
I decide my fate, my fate

See the life I take
Won't be yours for keeping
I decide my fate
I won't need any longer

See the life I take
Won't be yours for keeping
I decide my fate, my fate
