

Silence

Drist

When you tell me
That it's over
I really don't give a shit
It's been over for so long
Winter noticed
And I cannot give

We fall down in silence
Give work in your eyes
While you fall and I rise

Save me your wisdom, your hatred
I've heard it all before
Watch it ignite on contact
You cannot stop me
And I cannot give

We fall down in silence
Give work in your eyes
While you fall and I rise

Your smiles await my tears
Your smiles await

No love, no secret love
It felt you say, "It's over!"
