

## Do You Compute

Drive Like Jehu

Do you compute?  
I think you do  
Don't need it proven  
Don't wanna listen  
Don't need a tour of the pieces I'm missing  
As if you were put here to straighten us out  
And everything you said was being written down  
You weren't and it isn't and nobody's listening  
And nobody gives a fuck what you go do with your life
