

## Human Interest

Drive Like Jehu

You set it up, you set it right,  
It's fair enough. al'right:  
If i want a loan, if i wanna trespass.  
Why should i walk when you've got wheels.  
When i'm in doubt, when i'm in debt,  
When i'm in deep at your expense.  
Then i owe you. i owe you. i owe.

I'd never make you suffer, i know that wouldn't do,  
And that ain't practical, and i ain't through.  
When what i got needs fixing, when i want something new,  
I know i'm covered with you. your're my human interest...
