

## Knife Vs. Face Round 1

Drop Dead, Gorgeous

I can't sleep tonight, let's go  
stab me, directly in the heart  
watch me bleed; I'm lying at your feet  
dying, living for just one last breath with you  
I live, for you and only you  
stop lying; you know I'd lie with you  
we're dying on the inside  
you're smiling on the outside  
settle the score. Knife vs, Face round 1  
forget the taste of me and follow your instinct
