

# I Told You

Dropbox

And I told you, you better move along, yeah  
And I told you, what you thought was wrong  
And I told you, the solitude inside, yeah  
I will show you, we don't have to hide

This goes on and on, and on, and on  
On and on again, yeah  
Catch your breath and move along  
On and on again

And I told you, keep your piece of mind, yeah  
And I told you, the peace you hold inside  
And I told you, everything you've known, yeah  
They will know you for everything you've shown

This goes on and on, and on, and on  
On and on again, yeah  
Catch your breath and move along  
On and on again

Don't hide from everyone  
Come see what you've become  
You've tried since you were young  
To shine in front of everyone

And I told you, this is what you need, yeah  
And I told you, what a life to lead  
And I told you, controlling on your nerve, yeah  
Now you own you, speaking your own words

This goes on and on, and on, and on  
On and on again, yeah  
Catch your breath and move along  
On and on again

On and on, and on, and on  
On and on again, yeah  
Catch your breath and move along  
On and on again
