

## Buried Alive

Dropkick Murphys

Nothing they could do but sit down there  
with the black coal all around them,  
and the water rose so quick and cold,  
an unlikely place to drown.

Nine in the mine, trapped down below  
down, down, down in the ground  
and this'll be the day I didn't kiss my wife goodbye, take care  
of my family I'm buried alive

They held their heads up high  
as they struggled hard to breath  
and asked the Lord to open his arms  
for the nine souls he'd receive

Nine in the mine...

They latched themselves together  
so in death they might be found  
and prayed there for miracle some 24 stories down.

Nine in the mine...
