

# Don't Tear Us Apart

Dropkick Murphys

At the first sign of hardship, many bite the hand that feeds  
And when there's trouble, oh, they simply cut and run  
And when there's fear, a man will slit the throat of his neighbor  
or  
In a desperate search for comfort and love

Don't tear us apart [x4]  
Will you show us, some hidin' in this trouble, here where it starts  
You won't tear us apart

When your spirits are down and you've lost your way  
And man's character once again falls on its face  
Will somebody please come, aid those helpless in need  
And renew our faith in this human race

Don't tear us apart [x4]  
Will you show us, some hidin' in this trouble, here where it starts  
You won't tear us apart

Don't tear us apart  
You gotta show some heart  
Don't tear us apart  
You gotta show some heart

At the first sign of hardship, many bite the hand that feeds  
And when there's trouble, oh, they simply cut and run  
And when there's fear, a man will slit the throat of his neighbor  
or  
In a desperate search for comfort and love

Don't tear us apart [x4]  
Will you show us, some hidin' in this trouble, here where it starts  
You won't tear us apart
