

Road of the Righteous

Dropkick Murphys

Now I saw a man stand up one day and fight to save his life, just a common worker, supporting his kids and his wife, he put a plug in his jug things looked up for sure but the whole damn thing of it was there is no blasted cure

I've seen a few men go The Road of the Righteous
and a few have traveled
This Old Lonely Path
I've seen a few men go
The Road of the Righteous
by God I'm sure we'll see some more
go there blessed way

Hey it's gonna, take some foot work to get you on your way, the y'll be pit-falls and some cat-calls but hard you must persist, cause life is so precious and we have only got one shot, so if you move along and you stay God strong all the treasures will be got

Now I say a man stand up one day and fight to save his life Just a common worker, supporting his kids and his wife, he put a plug in his jug things looked up for sure but the whole damn thing of it was there is no blasted cure
