

## Working

Dropkick Murphys

Been working all day for me mate on the site  
Running around like a blue arsed fly  
I been working  
And I been working all day for me mate

Every bleeding minute I been on the go  
Up and down the ladder like a fiddler's elbow  
I been working  
I been working all day for me mate

Wait for tomorrow at half past ten  
When I sign on, but until then  
I'll be working  
I'll be working all day for me mate

Ain't got no cards, don't pay no tax  
For a score in me hand I'll be breaking me back  
I been working  
And I been working all day for me mate  
Call me a crook, call me bent  
But I need more than food and rent  
I been working  
And I been working all day for me mate

Wait for tomorrow at half past ten  
When I sign on, but until then  
I'll be working  
I'll be working all day for me mate

They try to follow me every day  
I give 'em the slip and I'm on my way  
None of the other blokes thinks it's wrong  
'Coz every one of 'em's signing on

Wait for tomorrow at half past ten  
When I sign on, but until then  
I'll be working  
I'll be working all day for me mate

They try to follow me every day  
I give 'em the slip and I'm on my way  
None of the other blokes thinks it's wrong  
'Coz every one of 'em's signing on

Wait for tomorrow at half past ten  
When I sign on, but until then  
I'll be working  
I'll be working all day for me mate

The benefit boys are out of touch  
What they don't know won't hurt 'em much  
I been working  
And I been working all day for me mate

If I'm caught I'll go down for a month or three  
But they'll still be paying out looking after me  
I been working

And I been working all day for me mate

Wait for tomorrow at half past ten

When I sign on, but until then

I'll be working

I'll be working all day for me mate
