### Drowners

Step into a secret world  
Where songs will be forever heard  
Break out of the underground  
Join the harmony crusade  
Tell your friends to do the same  
Spread this sight and sound around

From failure to success  
From nothing to excess  
Overdose on loud guitars  
Overdose on my big stars

Lyrics cutting like a knife  
Be the flavor of your life  
Spreading like the wildest fire  
Start a life of honesty  
Finger at the industry  
We're building something higher
