## **Long Hair**

**Drowners** 

Barely nineteen, I see you every night Whispering between us girls Oh yeah, between us girls I don't think of him that often any more

All the girls had long hair All the boys had long hair You were missing out

Once a week I keep an evening free for you Does he, teach you things? Does he, teach you things? That you'd never do for me, oh I know what you mean

All the girls had long hair All the boys had long hair You were missing out

All the girls had long hair All the boys had long hair You were missing out

All the girls had long hair All the boys had long hair You were missing out
