

## Cast Me Aside

### Drowning Pool

So you think that you got it all figured out  
I told you, you've got no clue what it is all about  
Now you want to cling to the next big thing  
Be part of the scene and ride the big machine  
Well it aint gonna work out that way  
Now you want to cling to the next big thing  
Be part of the scene and ride the big machine  
Well it aint gonna work out that way

What, who, where were you when I was down on my luck you know you never gave a fuck  
You just cast me aside  
What who where were when I needed you,  
You know you never came through  
And now you want to come along for the ride

I told you I know you as well as you think you do  
I'll show you just how easy you are to see straight through

Now you want to cling to the next big thing  
Be part of the scene and ride the big machine  
Well it aint gonna work out that way  
Now you want to cling to the next big thing  
Be part of the scene and ride the big machine  
Well it aint gonna work out that way

What, who, where were you when I was down on my luck you know you never gave a fuck  
You just cast me aside  
What ,who, where were when I needed you  
You know you never came through  
And now you want to come along for the ride

Nothing to me, you're nothing to me (4x)

What, who, where, were you? (4x)

What, who, where were you when I was down on my luck?  
You know you never gave a fuck  
You just cast me aside  
What ,who, where were when I needed you?  
You know you never came through  
And now you want to come along for the ride

For the ride (3x)

Now you wanna come along for the ride
