Dru Hill

Yo, yo, can ya'll hear me out there?
Cool ,cool
Allow me to introduce myself, ladies and gentlemen
See, I go by the name of Big Woody Rock
And I'd just like to take this time right here to just first of all thank yo
u all
For taking the time out to listen to this album
Hope you're enjoying everything you're hearing so far
But right now I just think I need to dedicate this song
This next song coming up, to every man, woman, boy, girl
Who ever and where ever you may be
Who's ever been in a relationship that just didn't quite work out

Also this song is dedicated to everybody who comes up to me in all the clubs

Supermarkets, airports, and every where else in the world
Asking me "Woody when you goin' do something? When they goin' let you sing?"

Not knowing that I sang all of "April Showers"
A verse on "All Alone", a verse on "5 Steps" and 'bout half the songs on the
album
But that's cool, ya'll ain't know, but right now I just want you to sit back

Close your eyes, kick your feet up and listen to this song right here
Cuz this here is for y'all
Yo, smiley you ready?
Lets do this

Girl, it's been so long
Since I held you in my arms
So I picked up pen and paper
And decided to write you a song

Things just ain't the same
Since you took your love away
All I have is dark and lonely days
Cuz the sun don't shine my way

Wish that I can find the words
To say to show you love is real
The words just can't express the way I feel

You're my angel
My sun up in the sky
We've been through hell and back together
Why you wanna leave me now
Only you can ease the pain I feel
And wipe my tears away
Won't you fly back home and make me whole again

Baby not a day goes by
That I don't want to cry
When I think of what we had
And how you walked out of my life

All I had was yours to take
Till my heart you chose to break

Still wish that I can make love to you
Just one more time for old times sake

If only I could find the words
To say to show you love is real
The words just can't express the way I feel

Come back home
Come back home
Cuz without you here beside me, girl
My house is not a home

Only you can ease the pain I feel
And wipe my tears away
Won't you fly back home
And make me whole again

Cuz you're my angel
My sun up in the sky
We've been through hell and back together
Why you wanna leave me now
Only you can ease this pain I feel
And wipe my tears away
Won't you fly back home and make me whole again

You're my angel
My sun up in the sky
We've been through hell and back together
Why you wanna leave me now
Only you can ease the pain I feel
And wipe my tears away

You've been gone too long
So won't you come back home
