

# In My Bed

Dru Hill

Nah, nah, this can't be true  
I got this feeling  
And I just can't turn it loose  
That somebody's  
Been getting next to you  
Don't wanna walk around  
Knowing I was your fool  
'Cause being the man that I am  
I just can't lose my cool

My friends keep telling me  
About the things that's going on  
But deep in my heart baby  
I hope that I'm wrong  
But I know it babe

Somebody's sleeping in my bed  
Somebody's taking in my bed  
Somebody's sleeping in my bed  
And you know just what I mean

I come home early  
Expecting your warm embrace  
Something is wrong  
'Cause it's written  
All over your face  
It hurts so bad  
When I walk through the door  
But you know one damn thing babe  
I ain't coming back no more

Now don't try to tell me  
Things are still the same  
'Cause when we made love  
I heard you call out his name  
Call out his name

Somebody's sleeping in my bed  
Somebody's taking my bed  
Somebody's sleeping in my bed  
And you know just what I mean

Girl, I want you to know  
I gave you money  
And every little thing that you need  
I gave you the world  
'Cause you were my girl  
But you still ran out on me

Somebody's sleeping in my bed  
Somebody's taking my bed  
Somebody's sleeping in my bed  
And you know just what I mean
