

# El President

Drugstore

Yeah yeah ya  
Came from the skies  
Burst through the gates  
With no mercy or disguise

With their hearts set out in flames  
I know; I've seen the master plan  
Well I'm just a man  
(I am just a man)

I'm not giving in  
All the people understand  
'Cause they all fell down and prayed  
I know;

I've seen the master plan  
Kill the President  
They killed the President  
They killed the President

Came from the skies  
(Came from the skies)  
In all shades of green  
We can always justify

We can measure up your dreams  
I know;  
I've seen the master plan  
Kill the President

They Killed the President  
Yeah yeah ya  
Yeah yeah ya  
Yeah yeah ya

They killed the President  
they've killed the President  
I'm just a man
