

I Know I Could

Drugstore

I feel stained and I'm in pieces
In my mouth the sad taste of the past I had
A thousand wasted kisses
But another glass

And a cigarette
Just anything
To help forget the things that
Every day I still find missing

Let the whole world crash down on me
And let the curtains rise
I could do so much harm
I could do you no good

I'll leave a stain in your heart
I would
Yeah, I'm gonna mess up your life
And make you forever blue

'Cause I could hurt you
I know I could
I know I could
Misty haze and the final rest

They say the first shall be the last
But not for me
'Cause I don't believe it
So another glass

And a cigarette
Just any man
To help forget the things that
Every day I still find missing

Let the whole world crash down on me
And let the curtain rise
I could do so much harm
I could do you no good

I'll leave a stain in your heart
I would
Yeah, I'm gonna mess up your life
And make you forever blue

'Cause I could hurt you
I know I could
I know I could
'Cause I could do so much harm

Yeah I could do you no good
I'll leave a stain in your heart
I would
Yeah, I'm gonna mess up your life

And make you forever blue
'Cause I could hurt you

I know I could
I know I could
