

Never Come Down

Drugstore

Sun gets in your eyes
So you turn away
Another sunny day
Goes by you
Is this gonna end
Or slowly drift away?
I don't want to go
No, I want you to stay
You don't have to ever come down
You don't have to make it real
Nothing's gonna stop you just being the way you are
Nothing's gonna change the way you feel

Never come down
Never come down
Never come down
Never come down

Sun gets in your eyes
And slowly moves away
Seems a lot of time
Goes by you
Is this gonna end
Or will it drift away?
I don't want to go
No, I want this to stay
You don't have to ever come down
You don't have to make it real
Nothing's gonna stop you just being the way you are
Nothing's gonna change the way you feel

Never come down
Never come down
Never come down
Never come down
