

## The Party Is Over

Drugstore

Another party's over  
Everybody's gone away  
I should be gone but she asked me to stay  
It's late but she's still talking  
The things that she says  
I should be gone but the strand of her hair  
When she said...

My heart is like a fire  
Maybe you should know  
Just looking for desire  
Got nowhere to go  
Baby think I'd better stop  
Before I lose control baby  
Before I lose control baby...
