

Silence

Dry Cell

i belive that im hangin by a string
and im feeling so small in a world full of big things
undone and im ready to explode on the thing i dont know
and i just wanna let go
understand that the way that i am is a product of a scam that y
ou pull on the last man
undone and im ready to explode on the things i dont know and i
just wanna let go

surprise my eyes were open
dont suffocate whats broken
are you ever done are you ever free
silence makes me numb with out you

you believe taht your chanign everything
and your feeling so tall that you can even see me
undone and im read yto explode on the things i dont know, and i
just wanna let go
understand that the way that i am is a product of a way that yo
u wanna play my hand
undone and im ready to explode on the things i dont know,

surprise my eyes were open
dont suffocate whats broken
are you ever done are you ever free
silence makes me numb without you
how can this go on take it all from me
silence makes me numb without you,

i never meant to cause you pain,
fighting aggrivation causing suffocation,
never meant to cause you pain,
fighting aggrivation causing suffocation,
i wont let you,

are you ever done are you ever free
silence makes me numb without you,
how can this go on take it all from me
silence makes me numb without you,
are you ever done are you ever free
silence makes me numb without you,
how can this go on take it all from me,
silence makes me numb without you,
without you, without you, without you
