Dry Kill Logic

Everything I need is not really what I want
Everything I need is not really what I want
Everything I need is not really what I want
Everything I need is not really what I want

Everything I need is not really what I want
Everything I need is not really... I wanna
I wanna, I wanna, I wanna really really wanna see you die

Everything I want I can't have if left up to me
Everything I want I can't have if left up to me
Everything and everything I want I can't have if left up to me
Everything I want I can't have if left up to me

Everything I need is not really what I want
Everything I need is not really what I want
Everything I need is not really what I want
Everything I need is not really what I want

Everything I need is not really what I want
Everything I need is not really... I wanna
I wanna, I wanna, I wanna really really wanna see you die

Everything I want I can't have if left up to me
Everything I want I can't have if left up to me
Everything and everything I want I can't have if left up to me
Everything I want I can't have if left up to me
Everything I want I can't have if left up to me

Rot!

Un-af-fec-ted!
By all the bullshit you cause
Un-pro-tec-ted!
Naked so we see your flaws
Vi-o-lat-ed!
You must think that we don't see this
Dis-re-spec-ted!
Just remember it's our ass you kiss

Rot!

Rot!

You don't like me, I hope you
Rot!
You don't like me, I hope you
Rot!

Un-jus-ti-fied!
You keep fucking with us, we are
Hos-tile in-side
We consider you a joke
Hate mag-nif-ied
Soon you'll think that we don't see this
Strip-down-your-pride
Soon you'll feel the force of all of us!

Rot!

Rot!

You don't like me, I hope you

Rot!

You don't like me, I hope you

Rot!

Can't you see this?

Why won't you leave me alone?

I don't like you

Can't you see that?

Why won't you leave me alone?
