

Rolling down the street
On my own two feet
I see the world beneath, ay
I feel the earth so deep, oh

I'm like a concord on my long board
I take the world with me now
I'm like a concord on my long board
I feel the world move with me now, yay

I see the air I breathe
I feel the gravity, oh
I never feel alone, no, no, no
The world is inside of me, yeah, oh

I'm like a concord on my long board
I take the world with me now, oh
I'm like a concord on my long board
I feel the world move with me now, yeah

I'm like a concord (2x)

Rolling down the street
On my own two feet
I feel the earth so deep
I feel the gravity

I'm like a concord on my long board
I take the world with me now, oh
I'm like a concord on my long board
I feel the world move with me now, yeah

I'm like a concord on my long board
I take the world with me now, now, now
I'm like a concord on my long board
I feel the world move with me now, yeah

I'm like a concord on my long board
I take the world with me now, with me now
I'm like a concord on my long board
I feel the world move with me now, yeah
