

# Cannot Forgive

Dubioza Kolektiv

Don't say you're feelin' bad  
Don't let yourself gettin' sad  
World accepts nothin' like that  
They keep their eyes closed to forget

If they ever saw 'A Hungry ',  
Or a child who's left

No one can not deny  
The victims of the crucify  
It's big judgement day  
For all those who survived  
The crime,  
The dirt in their face  
It still leaves a hard trace  
These were worst days for race  
Their mind of insanity  
Touched by 'The Primitive'  
Surprised all the people who were  
Waitin' for the remedy  
Than comes a renegade  
Come on people break ya' shame  
And fight with brothers  
And for those who would pray

World decided  
It's a better way  
To get power  
And make it stay  
No matter which price  
Inocent people should pay  
Inocent people should pay  
No matter which price  
Inocent should pay  
Inocent people should pay  
Inocent people should pay

Come on come on  
Bring your soul all along  
To the Judgement Day  
Where I have arrived with my will

Come on come on  
Bring your soul all along  
To the Judgement Day  
Where I have arrived with my will

Come on come on  
Bring your soul all along  
To the Judgement Day  
Where I have arrived with my will

Come on come on  
Bring your soul all along  
To the Judgement Day  
Where I have arrived with my will

No one can not deny  
The victims of the crucify  
It's big judgement day  
For all those who survived  
The crime,  
The dirt in their face  
It still leaves a hard trace  
These were worst days for race  
Their mind of insanity

Surprised all the people who were  
Waitin' for the remedy  
Than comes a renegade  
Come on people break ya' shame

Come on , Go On!  
We can't forget , and we can not forgive ...
