

# Come And Play

Dubioza Kolektiv

Come and play, come and play  
Life is just a game  
Drop your worries  
Thinking of yesterday  
Future, past  
We're living today  
You dream of changes  
But it all stays the same  
Try to feel, try to see  
As long as you believe  
So much energy  
Is out there to receive  
Grab it once  
And you'll find the key  
Take off the chains  
Coz' we're all born free

They're taking and they're taking and they're taking  
Don't stopa  
We're living and we're living and we're living  
On the bottom

What to do, what to choose  
It all depends on you  
And how to do it  
So you could see the closer view  
Keep the faith  
Don't turn your head away from the truth  
Life's just a phase  
We're all going through  
It gets worse, no reverse  
Anyway you're getting strong  
Take a look around  
The place that we belong  
Grab the chance  
You've been waiting for so long  
Take off the mask  
It can only make you wrong

They're taking and they're taking and they're taking  
Don't stopa  
We're living and we're living and we're living  
On the bottom  
Catch your right, catch your right  
Don't stop the fight  
The man can lose no faith  
It's no right

I wanna following my way

Use your head not just to put make up  
Use it wise and wake up, wake up

You better use your own mind  
Stop losing  
Stop confusing  
Use it now

Use your head  
Use it wise
