I think I waited too long  
I think I waited too long  
What's my way I'm asking, I'm asking  
Don't you receive the vibes I got to give  
Don't you receive the vibes

Humana' rhythm  
Rhythm is full of culture  
Rhythm man ,rhythm man  
Humana' force

Humana no got no sponsor for life  
Humana' human got no sponsor for life  
Them or not they won't treat  
Them or not punk it up  
I'm coming up here me up  
I'm coming coming up  
And the sweets and the ways and  
I waist 'em up  
Watch em up but they're real punks  
And I'm against them all  
They've shaking their hands  
When they had some decisions to make  
But they can't realize what's the fake yo  
But they can't realize what's the real fake yo

All I have is what I see as myself  
Decision is made and there is no turnin'  
Back  
I can't afford myself something like regret

Our Dear Light lightaway this life threat

That strangles me so long this suffering is  
Getting strong  
Positive energy is what I seek for  
As closer I am more far I feel  
Our Dear Light lightaway this bad dream...
