

# Ghost

Dubstar

Riverside on Friday night  
My friends remain  
They say your name  
But my guard has gone  
Put a brave face on  
And make a smile you could hear  
But you're not here  
I'll trace the whole world to find your ghost  
But wherever I go I'm alone  
There's no-one else  
Still living by myself  
Yes I'm eating well  
I still cook for two you know  
And the bathroom's clean  
Windows let the sun shine in  
My complexion's clear  
But you're not here  
An empty bedroom  
A silent phone  
Wherever I go I'm alone  
Wherever I go I'm alone  
A stranger's face, a different place  
I see you everywhere  
It's funny how time does nothing  
And doesn't seem to care  
But...  
I'll trace the whole world to find your ghost  
Who could understand me now you're gone  
I'll leave the bedroom  
Unhook the phone  
But wherever I go I'm alone  
I'll trace the whole world to find your ghost  
But wherever I go I'm alone
