

Want To

Duff McKagan's Loaded

I want to -- teach you how to stand
I want to -- take you by your hand
I want to -- lift up all your shame
I want to -- not dwell upon your grown pain
I want to -- learn to want again
I want to -- lift out all that's stained

When a fall decides
What you are gonna do
And the fallin' tides
Leave you spiraling through
Gonna take your time of lament and shame
When the moon above,
Remain your only friend

I want to -- show you how to feel
I want to -- look upon what's real
I want to -- can't realize what's gone
I want to -- till your life has come undone
I want to -- shake your world away
I want to -- I can't change the things you said

When a fall decides
What you are gonna do
And the fallin' tides
Leave you spiraling through
Gonna take your time of lament and shame
When the moon above,
Remain your only friend

You fall through
You fall through

When a fall decides
What you are gonna do
And the fallin' tides
Leave you spiraling through
Gonna take your time of lament and shame
When the moon above,
Remain your only friend

I fall down
