

Your Way

Duff McKagan's Loaded

There were so many bands
I know you heard them all before
There were so many times
You left them wanting for some more

Yeah, I think you could tell
Yeah, I think you could tell
Yeah, I know you could tell

There were so many crimes
I don't wanna do that time no more
Don't bring your friends into this
You take a chance and then you make a wish

Yeah, I think you could tell

Yeah, I think you could tell
Yeah, I know you could tell

I wanna see the world your way
I get so close then I shy away
I wanna see the world your way
I get so close and I walk away

I wanna see the world your way
I get so close then I shy away
I wanna see the world your way
I get so close and I walk away

Don't bring your friends into this
Don't bring your friends into this
