Believe in Me

Duff McKagan

When I was a young boy Said some man parted some sea They said believe in us Why should they lie to me

Now I'm not a young boy What I believe is what I believe But I still get fooled sometimes It's so goddamned easy (Girl Part)

Now that I'm a grown man Be the best that I can be Been down every rocky road And I'm bloodied at my knees But I treat you like a princess Never ask to be the king Just believe in me Believe in me Believe in me Yeah yeah Where does it leave me When you don't believe in me When you don't believe in me

I'd climb any mountain Yeah I'd cross any sea I might break down and cry But I'd drop down my bottle of rye If you'd just believe in me Believe in me Believe in me Where does it leave me When you don't believe in me When you don't believe in me

But I'm still my own man Yeah I'm still my own man And I do what I can And while you're treating me raw I still make my own law I still make my own law

Come on Believe in me Believe in me Yeah....me Believe in me Yeah Come on Believe in me Can't you see just believe in me Come on Believe in me Yeah yeah Believe in me
