

# Superman

Duff McKagan

Fate finds a way, of pickin you up when you're down  
I remember everthing, and I know for sure  
Ain't like it was before, I know I can shut  
that door

(chorus)

I wanna be your superman  
Won't you give me you hand  
So I can show you

Let down your hair  
And move on over next to me  
I wanna see your skin, beautiful white, soft in the light  
We'll just forget the past, we can have tonite at last

(chorus)

(bridge)

You can always lean on me  
You can dress me to whatever your vision of a dream man is  
Oh my pretty baby, can't you see  
I wanna be your everything

I remember yesterday, it's a long ways away  
I don't know just what your gonna do  
But I always wanna be right next to you  
But I always wanna be right next to you
