

# Trouble

Duff McKagan

Trouble always follows me  
But trouble ain't a bad place to be  
I'll get my shit by it, if I can  
But I stand on my own, and I'm  
my own man

The only age I know is the  
dark age  
All the people I know put me in a  
cage  
The only age I know is the  
dark age  
The only light I know is in this dark  
space  
I'm the portrait of your patroniza-  
tion  
Have you ever looked at my face?

They try to make a mess out of me  
They're heading for a social cata-  
strophe

They try to make a mess out of me  
Alienation, false masturbation,  
incrimination  
My soul salvation, discrimination,  
isolation  
No consolation here

Always follow me  
Always follow me  
Always follow me  
Always follow me  
Always follow me  
Always follow me  
Always follow me
