

## Keeping My Baby

Duffy

I never thought it would happen to me  
I was the one that they said would break free  
Broken promises settled the night  
He told me he was my mr right  
And I believed in all that was there  
And now it seems I'm living with regret  
Now I'm counting down the days so afraid  
Can't rewind or freeze the frame

Its too late  
Its too late

Can't you see the need in me  
I'm keeping my baby  
Can't you see the need in me  
I'm keeping my baby

I've lived a lie and now I face the truth  
20 weeks and what am I to do  
Now it seems I'm going alone  
A stereotype with a government home  
How I reside to try and survive  
No hope for me but this child deserves a life  
Now I'm counting down the days so afraid  
Can't rewind or freeze the frame

Its too late  
Its too late

Can't you see the need in me  
I'm keeping my baby  
Can't you see the need in me  
I'm keeping my baby
