

If I don't feel it

Duke Special

I'll talk to you in a while
When tragic spreads its wings
To sail away
Leaving beauty in my life
To support me and leave
These shadows behind

I'll walk with you in a while
When sadness takes its toll
Then fades away
Leaving hope within our lives
To restore and heal
And turn back the tide
Turn back the tide

Ooh Ooh...

And if I don't feel it anymore
I still can believe it
And if I don't see it anymore
Still I know it's for sure

I lied to you for so long
Now something needs to change
To fall away
Leaving truth within my life
To release and drink
Those memories like wine

I left you for too long
But I'm coming back again
Won't drift away
Or lose you in the dark
Believe me love, I won't leave you behind
Leave you behind

Ooh Ooh...

And if I don't feel it anymore
I still can believe it
And if I don't see it anymore
Still I know it's for sure.
