

# I Got Nothing

Dum Dum Girls

I will get stoned, cause I'm far from home  
It leads me back just like a map  
What will I see, if you're not with me  
What can I do, now without you

I feel nothing  
I feel nothing  
I feel nothing  
I feel nothing

Oh, I got nothing left to say  
From this day on  
I got nothing left to say  
From this day on

I close my eyes, recall the time  
Nothing was wrong, I knew what was mine  
Now I can't sleep, I'm sinking deep  
I don't understand, I don't know where I am

I feel nothing  
I feel nothing  
I feel nothing  
I feel nothing

Oh, I got nothing left to say  
From this day on  
I got nothing left to say  
From this day on

Until the day, I give up my voice  
Into the night, I go without choice  
Haunted by time, I fear isn't mine  
I don't wanna fade, I just wanna to shine

But I got nothing left to say  
From this day on  
I got nothing left to say  
From this day on

Oh, I got nothing left to say  
From this day on  
I got nothing left to say  
From this day on
