

Shine Inside

Duncan Sheik

Are you aware, when you just stare
For hours, into the sky
What do you see, can you show it to me
The beauty

I can see you shine inside
I wanna see the world, see it in a new light
I can feel spirit rise
I wanna see the world through your eyes

I watch you breathe, sitting under the tree
The peace that you find
You take my hand, waves crash on the sand
What's done, left behind

Well I can see you shine inside
I wanna see the world, see it in a new light
Well I can feel the spirit rise
How it shines

Scene changes, rearranges
Oh nature's song
The river is fire, the river is water
The river is sweet, sweet wine

Is it the time? Is there a sign?

Well I can see you shine inside
I wanna see the world, see it in a new light
Well I can feel the spirit rise
How it shines

Scene changes, rearranges
Oh nature's song
I'm seeing, I'm believing
I'm feeling strong

The river is fire, the river is water
The river is sweet, sweet wine
The river is moving, moving through me
The river it shines inside
