

Start Again

Duncan Sheik

Peace has lost its meanin'
Now, we've hit the ceilin'
All is said and all is done
Here goes, start again

You're better than you think so
Something I hold onto
I'm better too, holding on to you
Start again

So, meet me and we'll drive this car away
We can leave right now, what do you say
We'll head out for the wide and open spaces
If we can clear the way

Save yourself, don't save me
Save the one you may be
Let it be the best that it can be
Start again

So, meet me and we'll drive this car away
We can leave right now, what do you say?
We'll head out for the wide and open spaces
If we can clear the way

So, meet me and we'll drive this car away
We can leave right now, what do you say?
We'll head out for the wide and open spaces
If we can clear the way

So, meet me and we'll drive this car away
We can leave right now, what do you say?
We'll head out for the wide and open spaces
If we can clear the way
