

## View From The Other Side

Duncan Sheik

You thought it was a good thing  
Were you fooled again?  
Is it me who did the foolin'?  
Tell me where and when  
Where and when now little girl, little girl

Isn't it all at all about you and I  
The view from the other side is wider by far  
Listen to the radio, it ain't suicide  
Move on little girl  
There's a world wide open  
Move on little girl from that place

You tried to make it perfect  
But it never fails  
So few things you worship  
Ever hold the rails  
Hold the rails now anymore, anymore

Isn't it all at all about you and I  
The view from the other side is wider by far  
Listen to the radio, it ain't suicide  
Move on little girl, there's a world wide open  
Move on little girl from that place

Isn't it all at all about you and I  
The view from the other side is wider by far  
Listen to the radio, it ain't suicide  
Move on little girl, there's a world wide open

Isn't it all at all about you I  
The view from the other side is wider by far  
Listen to the radio, it ain't suicide  
Move on little girl, there's a world wide open  
Move on little girl from that place  
No it ain't a good
