

Like Before

Dune Rats

We used to be so dumb, took pride in being drunk
It's cool you went to school and bought an education
You've got a car of kids, I guess it's kind of sick
But you should call me up so we can get fucked up

Like before, except there's something different
Like before, just needed something different
Like before, except there's something different
Like before, just needed something different
(I don't know what I'm doing)

But I got a backup plan, it is my high school band
And I'm still living with my dad
When there is no one home, you smoke a cone alone
You still be you and I'll still be me

Like before, except there's something different
Like before, just needed something different
Like before, except there's something different
Like before, just needed something different
Like before, except there's something different
Like before, just needed something different (Something different)

Like before, except there's something different
Like before, just needed something different
Like before, except there's something different
Like before, just needed something different
Just needed something different
Just needed something different
Just needed something different
