

Last Night in the City

Duran Duran

I'm not gonna sleep tonight
Till the morning fills the sky
No one's getting left behind
This is our time
This is our time!

We're gonna live this night, ye-yeah
Live it like it's our last night
Cause nobody cares
If there's no tomorrow

I'm not thinking 'bout the future
It's somewhere out there
We're all busy being human
We remember
Hearts' spinning all around on me (together)
Now they're surrounding me
This is how we get connected
Running out the shadows into light!

We're gonna love this night, ye-yeah
Loving like it's our last night
Stars up in the air, ye-yeah
It's our last night in the city!

I've been traveling around now
Big world with my brothers
Always moving to a new town
No time to put the roofs down
We can't stop believing (can't stop)
Now we believe in you
Cause when you're standing in the spotlights
The only thing that matters is tonight!!

We're gonna live this night, ye-yeah
Live it like it's our last night
Cause nobody cares
If there's no tomorrow

We're gonna love this night, ye-yeah
Loving like it's our last night
Stars up in the air, ye-yeah
It's our last night in the city!

Ye-yeah
Last night in the city
Ye-yeah
Last night in the city

I'm not gonna sleep tonight
Till the morning fills the sky
No one's getting left behind
This is our time
This is our time!

We're gonna live this night, ye-yeah
Live it like it's our last night

Cause nobody cares
If there's no tomorrow

We're gonna love this night, ye-yeah
Loving like it's our last night
Stars up in the air, ye-yeah
It's our last night in the city!

Ye-yeah
Last night in the city
Ye-yeah
Last night in the city
