Nite-Runner

Duran Duran

You're nocturnal, only come out at night
And I'm learning all the ways you wanna ride
'Cause you're on the roam
But not until the darkness arrives
And I'm certain, I'll catch up to you
One of these times baby, oh

Can I get my hands on you tonight?
(I must be feeling something)
Something tells me I'm in for a ride
  (I wonder if you see me coming)

Can I get my hands on you tonight?
  (Tonight has got me running)
Something tells me I'm in for a ride
  (Right into your nighttime world)

'Cause I'm a nite runner, I think I'm falling for you
Nite runner, you got a spell that put me under
Nite runner, whatcha gonna do with it now?
Nite runner, nite, nite runner

Night scatters when you walk into the room
Under shadow, I can feel the heat in you
Should I be surprised?
I see the possibility moving right across to me
It all matters when I'm getting close to you
Hey yeah, uh huh

Can I get my hands on you tonight?
(I must be feeling something)
Something tells me I'm in for a ride
  (I wonder if you see me coming)

Can I get my hands on you tonight?
  (Tonight has got me running)
Something tells me I'm in for a ride
  (Right into your nighttime world)

'Cause I'm a nite runner, I think I'm falling for you
Nite runner, you got a spell that put me under
Nite runner, whatcha gonna do with it now?
Nite runner, nite, nite runner

Love is haunting
She wanted to go, that's what she told me
Love is haunting
She wanted to go, I cannot, cannot

Nite runner, I think I'm falling for you
Nite runner, you got a spell that put me under
Nite runner, whatcha gonna do with it now?
Nite runner, nite, nite runner

Nite runner, I think I'm falling for you
Nite runner, you got a spell that put me under
Nite runner, whatcha gonna do with it now?

Nite runner, nite, nite runner, runner
