

Water Babies

Duran Duran

All along the water, baby
Take me to your water, baby
All along your water, babe

All along the water, baby
Take me to your water, baby
All along your water, babe

Guess you know
Where I wanna go
Got to see the water flow
Try to understand

Got me trapped
Playing with me like a cat
Scrape your fingers down my back
Pin me to the ground

All along the water, baby
Take me to your water, baby
All along your water, babe

All along the water, baby
Take me to your water, baby
All along your water, babe

I'll get by
Can't you see I'm burning up
When you come and turn it up
Higher every time

If I stay
Oh, the end is near
Come and get me out of here
Come and get me now

All along the water, baby
Take me to your water, baby
All along your water, babe

All along the water, baby
Take me to your water, baby
All along your water, babe

Tell me is there any left?
I wanna drink it up, I'll drink it up
Baby, if there's any left
I'll drink it up, drink it up, drink it up

All along the water, baby
Take me to your water, baby
All along your water, baby

Take me to your water, baby
All along the water, baby

All along the water, baby

Take me to your water, baby
All along your water, babe

Take me to your water, baby
All along the water, baby
Take me to your water, baby
All along your water, baby

Take me to your water, baby
All along the water, baby
Take me to your water, baby
All along your water, baby
