

To The Sky

Dustin Lynch

If you got it on nine, you got it too low
Crank that ten til the kenwoods blow
Two in the morning ain't enough
We gon be here til the sun shows up
You had one shot, baby take one more
If you had two, make it three, maybe four
Feeling like you're ten feet off the floor
You know what you came here for

Whatever you got to raise up
You can't get it high enough
Your hands or your phone or your cup
Now set it off like the Fourth Of July
Gonna take it up to the sky
We'll be flying up in the clouds
Like we're never gonna come back down
Like we're running out of runway lights
Gonna take it up to the sky

Gonna touch the stars, baby no it ain't that far
If you sitting down, get up on your feet
If you're standing up, get up on your seat
If you on your feet, find a girl who don't know you
Spit a little game, get her up on your shoulders
If she wants to dance, give her what you got
Turn a cool night into sun burned hot
If she starts getting that look her in the eye
Then take her to the moon tonight

Whatever you got to raise up
You can't get it high enough
Your hands or your phone or your cup
Now set it off like the Fourth Of July
Gonna take it up to the sky
We'll be flying up in the clouds
Like we're never gonna come back down
Like we're running out of runway lights
Gonna take it up to the sky

Now throw up to the sky, throw up it to the sky
Going up to the sky, so high
Oh yeah, whatever you got to raise up
We're gonna set it off, we're gonna set it off

Whatever you got to raise up
You can't get it high enough
Your hands or your phone or your cup
Now set it off like the Fourth Of July
Gonna take it up to the sky
We'll be flying up in the clouds
Like we're never gonna come back down
Like we're running out of runway light
Gonna take it up to the sky

We're gonna touch the stars
Baby, no it ain't that far, come on
