

Angels

Dusty Springfield

The further you get, the better you see
Ooh yeah, it all goes on and on, infinitely
The closer you are, the better you see
Oh, within, within, there is infinity
Worlds within worlds within worlds within worlds

Let your soul take you higher
There are no bounds
Let your soul take you higher
(chase your fire)
(out of love, with empty souls)

Oh look back from the stars and see we are dust
It all goes on and on and we are the dust
So why don't we laugh, and why-
Why don't we sing...
In endless chords and harmonies
We're angels, dancing 'round

Let your soul take you higher
There are no bounds
Let your soul take you higher
(chase your fire)
(out of love, with empty souls)
