

# No Stranger Am I

Dusty Springfield

No stranger am I  
You enter my world  
I hear flowers sing  
No emptiness now  
You enter my world  
Hear flowers with me  
Sing joyous

I feel you 'er I sing  
No unending time alone

No stranger am I  
You open my eyes  
I feel laughter ring  
No longer alone  
You open my heart  
Feel laughter with me  
Ring joyous

Indifference gone away  
No unending time alone

Indifference gone away  
No undening time alone
