

## Roll Away

Dusty Springfield

Everyday when I look in the mirror  
I try to see where my soul's at now  
Happy day - is it further or nearer?  
On the way, will I find it somehow?

Yesterday's gone  
Love lead me on, oh  
I won't ask why

Roll away - it's only time and the river  
Roll away - to the endless sea  
Roll away - it could all change tomorrow  
This is life in it's glory  
And the river runs free  
Roll away

My dreams build the walls of the city  
Broken hearts tear them all down  
It ain't always easy and pretty  
It's just the world turning around  
Give us this day  
Give us this night, oh  
It'll be all right

Roll away - it's only time and the river  
Roll away - to the endless sea  
Roll away - it could all change tomorrow  
This is life in it's glory  
And the river runs free  
Oh, roll away

Everyday when I look in the mirror  
I try to see where my soul's at now

Roll away - it's only time and the river  
Roll away - to the endless sea  
Roll away - it could all change tomorrow  
This is life in it's glory  
And the river runs free

Roll away - it's only time and the river  
Roll away - to the endless sea  
Roll away - it could all change tomorrow  
This is life in it's glory  
And the river runs free  
Roll away, ahh, oh  
Ahh, ha, ho
