

# Save Me, Save Me

Dusty Springfield

I can't stand the morning light  
Now you've gone there ain't no-one  
Oh, to make it right  
The way you do  
Every day I fall more in love with you  
Knowing that you left this heart of mine  
You captured at the start  
And I know you know  
That I can't get through  
Am I livin' a lie when I reach for you?

You gotta save me, save me  
Only you can keep me warm  
Above the storm  
You gotta save me, save me  
You know there ain't a world enough  
Without your love, ooh, hoo, hoo, love

Gonna lay my head  
Try to rest my heart  
Dream my dreams  
But they're all of you  
And they fall apart  
The way I do  
Every night I fall more in love with you  
I'm praying for the day you turn around  
And make your love all mine  
And when I'm going down for the very last time  
You can throw me a line  
You can keep me alive

You gotta save me, save me  
Only you can keep me warm  
Above the storm  
You gotta save me, save me  
You know there ain't a world enough  
Without your love

When do I get to be near you?  
For all time  
Hear what you say again

And I know you know  
That I can't get through  
Am I livin' a lie when I reach for you?  
And when I'm goin' down for the very last time  
You can throw me a line  
You can keep me alive

You gotta save me, save me  
Only you can keep me warm  
Above the storm  
You gotta save me, save me  
You know there ain't a world enough  
Without your love, ooh, hoo, hoo

You gotta save me, save me

Only you can keep me warm  
Above the storm  
You gotta save me, save me  
You know there ain't a world enough  
Without your love
