

## Don't Sit Back

Dutch Uncles

It must be a hard time  
A thousand people struggle,  
Never known like that and does that fact make eme scream  
I can't decide what makes me want to live  
Every time I'm just somebody son  
Equivocal not, but chasing on my menace  
The race on every sun

So what's your piece of mine?  
Waiting for  
Didn't fake and say  
It was alright  
You've been caramelize the crème  
As long as you have known

Cuz nothing is the night  
The Frankie said that is was alright, it was alright  
And does that fact make me heal?  
It make me does but is every one, I guess my love  
I gotta know

So what's your piece of mine?  
Waiting for  
Didn't fake and say  
It was alright  
You've been caramelize the crème  
As long as you have known

Don't sit back got for a watch and hide from  
You've got to reach out to let hurt someone (3x)
